engineering, physics, chemistry, mathematics and biology, the deliberate engineering of materials at  
the nanoscale " nanotechnology " is new. **journal of molecular biology - elsevier** -  
the journal of molecular biology provides high quality, comprehensive and broad coverage in all  
areas of molecular biology. the journal publishes original scientific research papers that provide  
mechanistic and functional insights and report a significant advance to the field. the journal  
encourages the submission of multidisciplinary studies that use complementary experimental and ...  
**biochemistry 9511q: synthetic biology** - many recent advances in chemistry, biology, computer  
science and engineering put this area of biology at the cutting edge of promising new developments  
for improved products across many industries such as medicine, energy and the environment.  
emerging avenues across the field of synthetic biology will be highlighted with an emphasis on  
genome assembly and editing, drug development ... **module #1: biology: the study of life -
